GOLDBACKBOND

USDGB Pre-List Token Allocation

Exclusive Offering for Private Qualified Buyers

$0.80 Pre-List Price

CONFIDENTIAL • FOR QUALIFIED INVESTORS ONLY

Executive Summary

USDGB is a gold-backed stablecoin offering investors exposure to physical gold with 3x leverage, zero liquidation risk, and a unique staking mechanism that amplifies returns during gold appreciation cycles.

🎯 The Opportunity

Pre-list investors acquire USDGB at **$0.80** before the Bloomberg terminal listing pushes the price to **$1.00** — an instant **25% markup** at listing.

$0.80 Pre-List Price	**$1.00** Post-List Price
3x Gold Leverage	**$2M** Rewards Pool

🔐 **Goldbackbond Private — Coming Soon**

Privacy-first version launching Q3 2026. Zero KYC, full self-custody, complete financial privacy.

Why Pre-List Allocation?

25% Instant Markup

Pre-list at $0.80, list at $1.00. Immediate 25% gain upon Bloomberg listing.

$2M Pre-List Rewards Pool

Pro-rata allocation from the rewards pool for all pre-list investors. Pool closes at listing.

3x Collateral Value Certificate

sUSDGB 12-month stake unlocks 3x collateral value for up to 70% LTV loans. Ex: 100K sUSDGB = 300K Gold Certificate × up to 70% LTV.

15% Gold Bonus

When gold appreciates 10%+, receive an additional 2% bonus USDGB on top of leverage gains.

Zero Liquidation Risk Collateral

Unlike Aave's 80% LTV with margin calls, 12-month lock means no liquidation risk regardless of volatility.

Physical Gold Backing

Every USDGB is backed by physical gold in a bankruptcy-remote trust. Fully audited reserves.

How USDGB Compares

FEATURE	USDGB	PAXG	AAVE GOLD
Gold Backing	✅ Physical	✅ Physical	❌ Synthetic
Leverage	**3x**	1x	Variable
Liquidation Risk	**Zero**	N/A	High (80% LTV)
Staking Rewards	✅ Yes + Bonus	❌ No	Variable APY
Pre-List Discount	**20% ($0.80)**	❌ None	❌ None
Privacy Option	✅ **Coming Soon**	❌ **Full KYC**	❌ **Full KYC**

📊 Gold Market Outlook

With global uncertainty, de-dollarization trends, and central bank gold accumulation at record highs, gold is positioned for continued appreciation. USDGB's 3x leverage amplifies these gains while maintaining the safety of physical backing.
